

## IN THE SPECIFICATION

Please replace the paragraph beginning on page 4, line 20 with the following:

User utterances received by the skin-touch microphone 410 will be passed along in the following sequence: to the signal codec 420, to the micro-controller 430, to the wireless transmitting module 450, and then through the antenna 455 to the antenna ~~345~~ 545 of the unit ~~300~~ 500.

Please replace the paragraph beginning on page 4, line 24 with the following:

Signals received by the antenna ~~345~~ 545 will be passed along in the following sequence: to the ~~radio-receiving module 340~~ wireless transceiver module 540, to the micro-controller ~~330~~ 530, to the signal codec ~~320~~ 520, and then finally to ~~a voice output device 310 such as a wireless earphone~~ the communication unit 510.

Please replace the paragraph beginning on page 6, line 23 with the following:

The main difference between the first embodiment and second embodiment is that in the second embodiment, the radio-receiving unit 230 (refer to Figure 2) receives the second signal from the switch unit 220 directly, and in the first embodiment, the radio-receiving unit 130 (refer to Figure 1) ~~does not need~~ needs the transceiver unit 110 (refer to figure 1) as an intermediary to transmit the signals.

IN THE DRAWING

Replacement sheets of Figs. 1-5B are attached to delete borders.
